NBN

Reactivity:Human

Tested applications:WB

Recommended Dilution:WB 1:500 - 1:2000 Calculated MW:85kDa Observed MW:Refer to figures Immunogen: A synthetic peptide of human NBN Storage Buffer: Store at -20. Avoid freeze / thaw cycles. Buffer: PBS with 0.02% sodium azide, 50% glycerol, pH7.3. Concentration: e Synonym: ATV; NBS; P95; NBS1; AT-V1; AT-V2;

Background:

Mutations in this gene are associated with Nijmegen breakage syndrome, an autosomal recessive chromosomal instability syndrome characterized by microcephaly, growth retardation, immunodeficiency, and cancer predisposition. The encoded protein is a member of the MRE11/RAD50 double-strand break repair complex which consists of 5 proteins. This gene product is thought to be involved in DNA double-strand break repair and DNA damage-induced checkpoint activation.
