EPHA4

Reactivity:Mouse Rat

Tested applications:WB

Recommended Dilution:WB 1:500 - 1:2000 Calculated MW:110kDa Observed MW:Refer to figures Immunogen: Recombinant protein of human EPHA4 Storage Buffer: Store at -20. Avoid freeze / thaw cycles. Buffer: PBS with 0.02% sodium azide, 50% glycerol, pH7.3. Synonym:

SEK; HEK8; TYRO1;

Catalog #:A8346 Antibody Type: Polyclonal Antibody Species:Rabbit Gene ID:2043 Isotype:IgG Swiss Prot:P54764 Purity:Affinity purification

For research use only.

Background:

This gene belongs to the ephrin receptor subfamily of the protein-tyrosine kinase family. EPH and EPH-related receptors have been implicated in mediating developmental events, particularly in the nervous system. Receptors in the EPH subfamily typically have a single kinase domain and an extracellular region containing a Cys-rich domain and 2 fibronectin type III repeats. The ephrin receptors are divided into 2 groups based on the similarity of their extracellular domain sequences and their affinities for binding ephrin-A and ephrin-B ligands. Multiple transcript variants encoding different isoforms have been found for this gene.
