## Phospho-Src-Y527

Reactivity:Human

Tested applications:WB

Recommended Dilution:WB 1:500 - 1:2000 Calculated MW:60kDa Observed MW:Refer to Figures Immunogen: A phospho specific peptide corresponding to residues surrounding Y527 of human Src Storage Buffer: Store at -20. Avoid freeze / thaw cycles. Buffer: PBS with 0.02% sodium azide, 50% glycerol, pH7.3. Concentration:

oqt **Synonym:** ASV; SRC1; c-SRC; p60-Src;

## Background:

This gene is highly similar to the v-src gene of Rous sarcoma virus. This proto-oncogene may play a role in the regulation of embryonic development and cell growth. The protein encoded by this gene is a tyrosine-protein kinase whose activity can be inhibited by phosphorylation by c-SRC kinase. Mutations in this gene could be involved in the malignant progression of colon cancer. Two transcript variants encoding the same protein have been found for this gene.
