

Internalin-A

Description:Internalin *Listeria monocytogenes* Recombinant produced in *E.Coli* is a single, non-glycosylated polypeptide chain containing 374 amino acids and having a molecular mass of 42.7kDa. The Internalin-A is fused with an 8 amino acid His tag at C-terminus.

Catalog #:PRPS-038

Source:Escherichia Coli.

For research use only.

Physical Appearance:Sterile Filtered White lyophilized (freeze-dried) powder.

Amino Acid Sequence:MANENNFL EI MSETKEIKIV NIPDNNLKKV LNKSLNKSEN
SDLTVKDLES IEYLYGIAEN ISNIEGLEYC KNLKILSLQN NDNSKKENFN TITDLSPLKY
LKNLVVLDLR NNKISDLSPL ENLTNLESLR LSGNNISNIS PLNKLESLTT LTLSYNEITD
ISTISNLKNL THLALYNNKI EDISSLKENT KLQNLSLGFN KIKDISVLSN LKNLYDLSLE
ENNIKSIKSL SN

Purity:Greater than 95.0% as determined by SDS-PAGE.

Formulation:

Internalin-A is lyophilized from a 0.2

Stability:

Lyophilized Internalin-A although stable at room temperature for 3 weeks, should be stored desiccated below -18°C. Upon reconstitution Internalin-A should be stored at 4°C between 2-7 days and for future use below -18°C.For long term storage it is recommended to add a carrier protein (0.1% HSA or BSA).Please prevent freeze-thaw cycles.

Usage:

NeoBiolab's products are furnished for LABORATORY RESEARCH USE ONLY. The product may not be used as drugs, agricultural or pesticidal products, food additives or household chemicals.

Solubility:

It is recommended to reconstitute the lyophilized Internalin-A in sterile 2XPBS not less than 100

Introduction:

Internalins are surface proteins located on *Listeria monocytogenes*. Internalins exist in two known forms, InIA and InIB. Internalins are used by the bacteria to invade mammalian cells via cadherins transmembrane proteins.The precise role of the Internalin proteins and their invasiveness in vivo is not entirely understood. However, in cultured cells, InIA is needed to facilitate *Listeria* entry into human epithelial cells. While InIB is required for *Listeria* internalisation in several other cell types, including hepatocytes, fibroblasts, and epithelioid cells.
